RECEIVED

To Whom it May Concern,

I would like to know how to campaign AGAINST yet another increase for APS. Unlike many who do not know any better, I lived in SRP territory for many years and am very well aware that they do not raise their rates every few months like APS does. I moved because my work is up in the N.W. Valley but now realize I probably would have been better off just spending the extra money on gasoline to and from work rather than dealing with the constant rate increases. They really have us over a barrel. When are we going to have a choice in the matter? I am would like to propose that NOT ONE person at APS get any kind of raise or bonus because they obviously do not know how to manage a power company. They also should go take lessons from the folks over at SRP, because they obviously do. I am going to forward this email to anyone that will listen because SOMETHING has to be done about this terrible injustice. I feel really bad for those people that have absolutley no room in their budget for this increase. I have steadily raised the temp in my home to 81 degrees now in the summer. It is very uncomfortable. I will move at the first chance of getting out of APS territory and still being close to my work. I regularly advise people I come in contact with who are moving here to not move in to cities with this rip-off service.

Thank you,

Amy Buhrdorf

Investigator's Comments and Disposition:

05/07/07-I spoke to Ms. Buhrdorf today and I thanked her for e-mailing the Commission regarding her opinion for the APS rate case. I informed the customer that his opinion will be placed on file with the Docket Control Center of the Commission and will be made part of the record. I also informed the customer that the Commission will also take his opinion into consideration before rendering a decision in the company's rate application. CLOSED.
